Rebuttal of Libel, Slandorous and Falsified Statements and Opportunity to Cure

In response to the egregious, defamatory and libelous statements made by Keith Livingway, (a.k.a. James Faith) in the above-referenced publication about me, Heather Bingham, and others who joined in lawful assembly with me, I write this rebuttal in response, and gift this Opportunity to Cure. Your publishing is slanderous and false, and has no truth in it whatsoever.

The Reign of the Heavens (hereafter referred to as “TROH”), alleged Trustees of TROH and by subsequent connection to The United States of America (“TUSA), the Trustees of TUSA, Keith Livingway (a.k.a James Faith), Naomi Spears, Derek Williamson, Roger Wayne Rhodes, and Thomas Goudey, are in breach of their fiduciary duties. The following examples are not all inclusive, but illustrate the appearance of acting in equity:

The persons named in this rebuttal pretended and continue to pretend to be of service and helpful to all who come to them, by initially answering questions, offering individual trainings / sessions to teach about TUSA, and personal invitations to join TROH, etc.;

The persons named in this rebuttal act like they are benevolent and humble by supporting the reading of the scripture Matthew 5:23-24 at the beginning of each ANA meeting which states *"If, then, you bring your gift to the altar, and there remember that your brother holds whatever against you, leave your gift there before the altar, and go, first make peace with your brother, and then come and offer your gift"*, (The Scriptures), giving the appearance that they offer peaceful reconciliation and forgiveness; and

The persons named in this rebuttal initially give the appearance of supporting freedom of religion and worship, i.e. by claiming these fundamental rights to be defended in their Bilateral Social Compact;

The persons named in this rebuttal presented and continue to present the Bilateral Social compact, which is connected to TUSA, as a document which can be used by people desiring to enter a trust for lawfully occupying the metes and bounds of The United States of America, and that it is available to all, without causing harm.

However, the trustees breached their fiduciary duty to me, and by association, the people in the Virginia assembly, because once we (and others associated with us) joined your organization(s), and signed a compact, which on the outside, *appeared* as an equitable agreement for all who are hoping to operate in a parallel, lawful governing nation that is friendly to all other governments, you used all of our actions against us. You started bullying, executing online character assassinations, interrogations, name-calling and false accusations against us. That by our asking questions, seeking verification of evidence of your claims, and assistance to publish a Bilateral Social Compact for the newly forming Tidewater assembly, you labeled us essentially enemy combatants, and charged that we "committed acts of Treason against the States of the Union". You also called us liars, at every opportunity you desired. This is entrapment at the highest level and clear breach of fiduciary duty.

As such we have the right to claim damages. Your breach of fiduciary duty was the cause of damages in the form of defamation of character and name, harassment, intimidation to harm our rights, fraud by adhesion, interrogation and verbal abuse, attendance by your agents at our meetings to gather information for use of sophistry or even intentional tort, trespass or any other such personal rights or trust violation.

Opportunity To Cure

In good faith, I, and others in the Virginia dejure assembly, signed your compacts and joined your club which appeared to offer an alternative form of self-governance, but instead, you tried to capture our freedoms to hold over us, libeling us publicly, with no real cause, (other than the fabricated creations by yourselves). Therefore, you are in breach of private trust as well as in breach of the fiduciary duties of your own said trusts/compacts. As such, your opportunity to cure is a mutual release of joinder where:

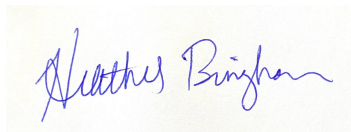

1. Keith Livingway (a.k.a. James Faith), or other responsible trustee, will publish a retraction of the referenced article,
2. Issue an apology to those the article was addressing, including the members of the Tidewater assembly, Heather Bingham, "another woman...name withheld for now", all people in Virginia who, in good faith, signed a resident declaration and / or Bilateral Social compact, AND all people outside of Virginia that were associated or working with Virginia, who came to you in equity, but who you also 'kicked out' of your so-called club at threat of legal action to enforce undisclosed compact / contracts upon us.

The result of your acceptance of fiduciary responsibility and cure will restore the reputation of all involved, including yours, thus providing equitable remedy.

In turn, as commanded in Ephesians 4:32 "Be kind and compassionate to one another, forgiving each other, just as in Christ God forgave you", I, those in the Virginia dejure assembly and others associated with us, that have been wholly wronged, are committed to remain in honor and forgive you.

I look forward to your swift response, and no later than within 3 (three) business days of receipt of this rebuttal.

In equity,

Heather Bingham

And Agent of Record
